J3M 323-61
19 May 1961

IDEA-0310
COPY 1 OF 1

MEMORANDUM FOR: General C. P. Cabell, USAF, Deputy
Director for Central Intelligence

Subject: Operational Data for the Joint
Reconnaissance Center

Reference: Memorandum for Director for Intelligence,
Joint Staff from Deputy Director, CIA,
Subject: Operational Data for the Interim
Joint Reconnaissance Center, dated 28
December 1960

1. Referenced memorandum outlined the means for providing the Interim Joint Reconnaissance Center with timely notification of any reconnaissance activities planned by the Central Intelligence Agency. The reference stated that "until such time as the Joint Reconnaissance Center becomes fully operational, it is proposed that alerts will be passed to the Interim Joint Reconnaissance Center through AF00P-SA of Headquarters, U. S. Air Force".

2. As the Joint Reconnaissance Center is now operational, it is requested that the Joint Reconnaissance Center be considered the primary point of notification in the Department of Defense for reconnaissance activities planned and conducted by the Central Intelligence Agency.

3. Designating the Joint Reconnaissance Center as primary point of notification should in no way be construed as limiting the flow of information between Central Intelligence Agency and AF00P-SA when required by either party.
